Elizabeth at Choice has been instrumental in helping out start-up Oil & Gas Company off the ground. She seems to always meet our needs at a very reasonable price.

Her patience in working with me on selections and price is next to none. She doesn't know this because I always give her a hard time, but I really enjoy hearing from her and her ideas on how better to furnish our office. So far we have furnished two offices and Choices has been our selection for both.
