Attention: Trish Mathieson

Dear Trish;

Please accept this letter as our testimonial to the great service and products that you have provided to us over the years. I have been dealing with you for the past 10 years, first with a large public company and now in a smaller private company that I am a partner in and I have enjoyed all of our dealings with you.

Trish's knowledge of the furniture business and products available have been a tremendous help to me and our organization. Her ability to assist us in choosing the right products, materials, colors and designing office layouts have helped us ensure that we picked the right office furniture, at prices within our budget and resulting in great looking offices. Her personable service also ensures that every detail is looked after and not left to someone else to deal with and that every order is done right, on budget and on time.

I look forward to dealing with Trish for many years to come and highly recommend that you give Trish a call for all of your office furniture requirements.

Yours truly;

A handwritten signature in cursive script that reads 'L.M. Santiago'.
