Attention: Trish Mathieson

Dear Trish:

I would like to thank you for all your assistance with our office furniture requirements.

It truly is a pleasure to deal with you whether we need one filing cabinet or the replacement of all of the furniture in the individual offices. We have found you most helpful and knowledgeable about the office furniture industry. The resources and network that you have built up through your years in the industry are definitely an advantage to us as the consumer.

Your service is always prompt and accurate. Although we very rarely encounter issues surrounding our order, I know that you are there for us and will make right whatever may be wrong.

After having dealt with you for the past 13 years, I wouldn't think of going anywhere else for our furniture needs.

Yours truly,
EXPLORER™ Software Solutions Ltd.
