LINKS DESK COLLECTION

At Links Contract Furniture, we manufacture high quality office furniture with experience in creating workplace environments that have inspired, challenged, and adapted to the changing needs of our customers since 1995.

At Links we embrace research and design - bringing innovative ideas, products, and services to the North American office furniture market.

Links Workspaces combine contemporary design and ergonomics, offered in a wide selection of beautiful finishes and textiles to enhance every workspace environment.

Links is designed for open office applications and shared workspaces. The Links Made-To-Measure process can create a collaborative environment in any space.

All Links workstations can incorporate compatible post-mounted privacy panels, with combinations of tack boards, acrylic, whiteboard, and laminate, for a level of privacy from 6" to 36" high. All panels have the option of creating additional storage with post-mounted hutches.

Links' Metal Bases are ideal for libraries, study halls, computer labs and call centers, designed to provide the ability to create customized rows of desks in limited space, with the ability to add privacy panels.

Our design staff expertly utilize the 20-20 Giza Studio program to design, organize, and personalize your office with use of the Links Library containing over 4,000 SKU's. Giza studio uses a combination of scalable 2D and 3D drawings while generating reports for formal presentations.
